## **BOOK SYNOPSIS**

Market\_Desc: · Programmers· Developers· Students in Graduate level Object or Java Courses  
Special Features: · Authors--Proven track record on this topic, they established themselves as the leaders in this area.· A lot of new technology about Java and CORBA is hitting at the end of 1997--perfect timing for an update of the book.  
About The Book: The hot topic at this years JavaOne conference was Java/CORBA programming and JavaBeans. The first edition of this book was the bestseller at the conference. Most of the new tools and products surrounding Java development will be CORBA-based. These tools are expected to ship by years end. Tools for JavaBeans are also expected to ship by years end. Its a perfect time to update one of our most successful programming books for these new products. Our authors are in the thick of everyones development plans for Java and CORBA. JavaSoft and Sun are paying them to consult on JavaBeans, Netscape and Oracle are wining and dining them about their CORBA expertise, Symantec has asked them to consult on the next version of Visual Café, and both IBM and Microsoft are asking for their help on formulating their Java strategy. In addition to their consulting services which gives them the inside scoop, they also run a million \$ lab at San Jose State where they are early beta testers on a lot of the tools and products discussed in the book. This inside knowledge will allow them to write the definitive book on programming with Java and CORBA.
